

To Our Patients,

We understand this is a time of uncertainty and there are many concerns surrounding the spread of Coronavirus, we want to let you know the protocols we have set in place for our office. Your safety as well as the safety of our employees is our number one concern. If you meet any of the following criteria, we ask that you please call our office to cancel any upcoming appointment you may have, or refrain from scheduling any future appointments:

If you have any of the symptoms listed below:

- Fever
- Cough
- Shortness of Breath
- If you have had close contact with a person known or suspected to have Coronavirus in the past 14 days
- If you have traveled to an area affected by the Coronavirus in the past 14 days (i.e. China, Italy, Iran, South Korea)

We kindly ask that you call our office at (972) 733-3090 to cancel until you are symptom free. We apologize for any inconvenience this may cause, but out of respect for the safety of our patients, colleagues, and community, we ask that you please adhere to these protocols until further notice.

If you are sick or have a fever, we encourage you to contact our office before coming in for your scheduled appointment. In addition, for those patients who would like to reduce their risks during this time, we are offering Telemedicine Visits. By using a secure connection and your smartphone or computer, you can have a face-to-face visit with any of our providers remotely, or if you prefer you can use a regular phone or cell for voice call appointments. While there is no perfect substitute for an in-person appointment, we understand in cases like this where due to the circumstances patients may not be in a position to come to the office, we are happy to schedule a Telemedicine Visit. If you'd like to schedule a Telemedicine Visit, reschedule your appointment, or have any questions at all please call our office at (972) 733-3090.
