

To Our Patients,

We understand there are concerns surrounding the spread of Coronavirus and the Delta variant. Your safety as well as the safety of our employees is our number one concern. Per the Dallas County mask mandate effective August 12, 2021, everyone working, visiting, or receiving care at our office must wear a face mask.

Patients are welcome to bring one visitor to appointments to limit the possible risk of exposure to our staff. We apologize for any inconvenience this may cause, but out of respect for the safety of our patients, colleagues, and community, we ask that you please adhere to these protocols until further notice.

Our office always offers Telemedicine visits, for those patients who would like to reduce their risks during this time. By using a secure connection and your smartphone or computer, you can have a face-to-face visit with any of our providers remotely. While an in-person appointment is always ideal, we understand due to the circumstances patients may not be able to come to the office, we are happy to schedule a Telemedicine Visit. If you'd like to schedule an in-person, Telemedicine Visit, or have any questions at all please call our office at (972) 733-3090.

Thank you,
Addison Internal Medicine Team
